Education

Vellore Institute of Technology (VIT)	2024 – 2026
Master of Computer Applications (MCA)	
Dr. Virendra Swaroop Institute of Computer Studies	2021 – 2024
Bachelor of Computer Applications (BCA)	

Skills Summary

- **Programming:** Python, Java, C, Dart
- **Web & Mobile Development:** Flutter, ReactJS, NodeJS, HTML5, CSS3
- **Database Management:** MySQL, MongoDB, Firebase
- **Tools:** Android Studio, Git, VS Code, TensorFlow, Colab, OpenCV
- **Soft Skills:** Team Collaboration (4+ Member Teams), Cross-Functional Coordination, Problem-Solving

Internship Experience

AI Intern — Infosys Springboard	Dec 2025 – Feb 2026
---------------------------------	---------------------

- Architected an Agentic AI solution: **Car Lease/Loan Contract Review and Negotiation AI Assistant**.
- Designed automated contract analysis modules to extract 10+ critical risk metrics, hidden terms, and clauses.
- Built dynamic negotiation workflows leveraging Agentic AI frameworks, reducing evaluation time by 40%.

Machine Learning Intern — Aican Automate	Aug 2022 – Sep 2022
--	---------------------

- Applied machine learning concepts to real-world classification challenges, achieving an average precision of 82%.
- Optimized and fine-tuned models using Python and TensorFlow, improving accuracy by 15%.
- Collaborated with a 4-member team to debug and optimize hyperparameters, reducing training time by 20%.

Projects

Campus Navigation App

- **Technologies:** Deployed a cross-platform mobile navigation app using **Flutter**, Dart, and **Google Maps API**.
- Integrated real-time tracking and 5+ custom map overlays, improving route navigation clarity.
- Enhanced navigation efficiency via graph-based route optimization using **Dijkstra's algorithm**.

ScanIt: AI-Powered Learning Assistant

- **Technologies:** Spearheaded an AI tool to extract and explain images using OCR (EasyOCR/Tesseract), OpenCV, and NLP.
- Built an end-to-end pipeline for instant content summarization, glossary generation, and automated 10-question quiz creation.
- Led ML model design and pipeline implementation across text extraction and NLP modules.

Agro - Smart Farming Assistant

- **Technologies:** Designing and developing a full-stack agricultural web platform using **React.js** to assist farmers.
- Optimizing soil, crops, and fertilizer, boosting crop yield efficiency by **20%**.
- Integrating APIs and datasets to analyze agricultural parameters, improving decision-making speed by 25%.
- Constructed a farm data analysis dashboard processing 4+ real-time soil and crop parameters to generate automated fertilizer recommendations.

Certifications

JavaScript Algorithms and Data Structures — freeCodeCamp	May 2025
Responsive Web Design — freeCodeCamp	Apr 2025
Prompt Design in Vertex AI — Google	Feb 2025
Foundations of UX Design — Google	Mar 2024
Android Development — Dr. Virendra Swaroop Institute	Aug 2023
Machine Learning — Teachnook Wissenarie IIT Bhubaneswar	Oct 2022
